Welcome to Sunbury Plaza Dental. Our doctors and staff are committed to providing you with the best dental care and the most comfortable experience possible.

In order to perform a comprehensive exam and plan the best care for you, the doctors require a full series of radiographs for most adults. It is necessary to take these images during your first comprehensive appointment. Most of the images are done using digital technology so they are completed quickly and comfortably. Many insurance plans provide a benefit for this service, some do not. We will do everything possible to get your insurance plan to cover this service for you. If the service is not covered, you will be responsible for the fees.

Thank you for considering Sunbury Plaza Dental for your dental care. If there is anything we can do to make your experience better, please let us know. We love to help you smile!
